Steady CDL

Brand guide v1 · Oct 28, 2026
Flat black and white. Nothing else.

LOGO

Horizontal is the default. Stacked for square spaces. The app icon is the mark on a white square; iOS rounds the corners. The mark is an 80% ring (72° gap) with one dot at the end of the gap. Never move, recolor, or animate the dot apart from the ring.

CLEARSPACE

X = half the mark's diameter. Keep X clear on every side. The files in /final already include it.

MINIMUM SIZE

Lockup ≥ 120 px wide Mark ≥ 16 px

At 64 px and below (60, 29 px icons, tab bars, favicons) use the small-optimized mark: heavier ring, bigger dot.

TYPE

Inter SemiBold
Wordmark, headings, buttons. –3% tracking on headings.

Atkinson Hyperlegible
All reading text. 18 pt minimum in the app; follows Dynamic Type.

`49 CFR 393.51 · TX CDL Manual §5.x`
Citations and source lines only.

COLOR

Black	White	Sub text
#000000	#FFFFFF	#5F5F5F

Line	Soft fill
#E5E5E5	#F4F4F4

No brand accent color, gradients, or shadows. Cab Mode simply inverts: white on black.

THE ONE RULE

Correct and incorrect are always an icon + a word. Never color alone.

✓ 60 psi — Correct answer

✕ 40 psi — Not quite

Also: no mascots, no confetti, no streak pressure, no pass guarantees. Calm, large, cited.
